Within the framework of its promised social program to support the various local community initiatives, a memorandum of understanding was signed earlier between Qalhat LNG and the Ministry of Education, under which Qalhat LNG will fund the training of 180 school buses drivers on Defensive Driving Program that will be implemented in collaboration with Traffic Safety Institute of Royal Oman Police.

The agreement was signed by HE / Mustafa bin Ali bin Abdullatif, Undersecretary of the Ministry of Education for Administrative and Financial Affairs and Mr. Khalid Al Massan Vice President of Corporate Affairs of Qalhat LNG.

In this regard, His Excellency said: in line with the directives of His Majesty about the important role the private sector plays as a national partner of the government in the overall development strategy of the country through participation and contribution in supporting the educational process in the Sultanate, this program will support the efforts of the Ministry to continue the ongoing development of educational services and it comes in compliance with His Majesty's vision that traffic safety is everyone's responsibility to reduce traffic accidents as they have serious social and economic impacts.

As we extend our sincere appreciation to Qalhat LNG on the moral and financial support for this program to serve the educational process in the Sultanate, we wish them continued success.

In this occasion Mr. / Khalid Al Massan said “Qalhat LNG since the inception has been paying a special attention to the programs that aim at the development of the social services in general and the local community in specific. This pioneering program that is embraced by the Ministry of Education is one of the sustainable social and educational programs adopted by the company and we believe it will raise the efficiency of bus drivers which will help greatly in reducing traffic accidents in our beloved Oman”

“We are also optimistic about the success of this training program, which will be implemented in cooperation between the Ministry of Education and ROP - Traffic Safety Institute, which will ensure getting the best results possible” Mr. Khalid Al Massan added.

Qalhat LNG was set up in 2003 as part of the Government Economic Vision 2020 to diversify the national economy, the company records a number of successes and placed in the ranks of major international energy companies thus confirming the strength of the economy of Oman, with its elements of stimulating and a safe investment.
